Transforming Leaders. Strengthening Businesses. Inspiring Women.

International Speaker ♦ Executive Facilitator ♦ Leadership & Small-Business Strategist

Dr. Yvette Rice is an International Speaker, Leadership and Small-Business Strategist, Executive Facilitator, Bestselling Author, and Founder and CEO of LLVE, LLC—Ladies Living in Victory and Excellence. With more than four decades of combined experience spanning engineering, program management, entrepreneurship, leadership development, and ministry, Dr. Yvette equips women and organizations to strengthen leadership, navigate change, build sustainable businesses, and pursue Marketplace success with confidence, clarity, and purpose.

Her message is grounded in both professional experience and personal transformation. After stepping away from a successful engineering career for 15 years, Dr. Yvette returned to a dramatically changed Marketplace and confronted fear, insecurity, and self-doubt. She discovered that the faith and spiritual strength she exercised in ministry were equally relevant in the boardroom, workplace, and business environment.

That realization gave birth to what she calls **God-Empowered Confidence™—yielding to the Holy Spirit and allowing Him to place “His Super” on our “Natural.”** Within months of returning to the Marketplace, she transitioned from uncertainty to successfully leading a multimillion-dollar program.

Today, Dr. Yvette brings that combination of **faith, executive leadership experience, business strategy, and transformational teaching** to conferences, corporate environments, leadership programs, entrepreneurial organizations, churches, and women’s professional events. Her speaking and facilitation experiences move beyond inspiration by challenging audiences to examine how they lead, make decisions, respond to change, build capacity, and translate purpose into measurable action.

Through LLVE, LLC and its **Faith-Filled Leadership Institute for Women™**, Dr. Yvette develops transformational learning experiences for women professionals, executives, entrepreneurs, and business owners. Her work addresses leadership development, organizational change, executive presence, business growth, founder dependency, resilience, faith and ambition, and the transition women need to lead at greater levels of influence and responsibility.

Whether delivering a keynote, facilitating an executive workshop, leading an intensive, or engaging an entrepreneurial audience, Dr. Yvette brings a distinctive combination of executive insight, Biblical wisdom, practical strategy, authenticity, energy, and humor that connects with audiences while challenging them toward purposeful action. **Her message is clear: women do not have to separate faith from leadership, purpose from profitability, or calling from excellence. They can lead boldly, build strategically, and create impact that reaches far beyond themselves.**
